

## Master Classes 2019

### Want to get ahead?...

Reepham College offers a series of Master Classes for Year 11 students in the following specialist areas. **(Booking required. Please download a booking form from the website or contact [office@reephamcollege.com](mailto:office@reephamcollege.com))**

#### **A Competitive Oxbridge Application – An Oxford Guide – Saturday 28<sup>th</sup> September 2019**

*(Postponed due to change of staff at Oxford University)*

Interested in finding out more about Oxford? This Master Class, will give students the chance to learn more about the Oxford admissions process, from personal statements to college choice, and is an opportunity to discover good ways to prepare your application early. This Master Class is run in conjunction with Oxford University and a representative from the University will be at the session to give you first-hand knowledge.

#### **Creative Arts – Saturday 5<sup>th</sup> October 2019**

Have you ever wondered how to produce a three-colour lino print using a traditional Albion Press? Can you produce a range of exciting prints from simple material? Does the thought of using a wide range of media and process to develop and refine your creative studies excite you? Then join us for a morning of exploration into the world of image making through print; an exciting process for art, textile and photography students.

#### **Significance of Psychology – Saturday 12<sup>th</sup> October 2019**

We will discuss the general route into undergraduate Psychology followed by discussion on how you can select one of the specialisms. Together we will explore each of the specialist areas and share some of my experiences on becoming a chartered clinical and forensic psychologist. We will then discuss what psychologists do on a day to day basis and attendees will have the opportunity to try out some psychometrics and have a go at formulation!

#### **A Career in Medicine – Saturday 9<sup>th</sup> November 2019**

Have you ever thought about becoming a doctor? Do you have an interest in science? Do you want a job that is rewarding and worthwhile? Then come to the Medicine Master Class where we will be talking about the application process to medical school. Run by a practising doctor who has worked in medical course admissions. You'll find out what is involved in a career in medicine and think about what medical school could be like, as well as gaining an understanding of what you need to do to get a place in one of the most prestigious professions around.

#### **Techniques of Dissection – Saturday 16<sup>th</sup> November 2019**

There is no substitute for the hands-on learning experience of dissection. Come along to the dissection Master Class where this unique hands-on learning environment will impart an appreciation and understanding of anatomy. You will see organs and understand how they work within a single animal as we dissect a heart and lungs from a sheep and then carry out a complete dissection of a rat. While, of course, there are various differences between the intricacies of the human body and those of other animals, many of the internal systems work in similar ways and this will help to strengthen your comprehension of biological systems.
