

Master Classes 2021

Want to get ahead?...

Reepham College offers a series of Master Classes for Year 11 students in the following specialist areas. **(Booking required. Please download a booking form from the website or contact office@reephamcollege.com)**

Saturday 16th October 2021

A Competitive Oxbridge Application

This Master Class, will give students the chance to learn more about the Oxbridge (Oxford / Cambridge) admissions process, from personal statements to college choice, and is an opportunity to discover good ways to prepare your application early. This Master Class is run in conjunction with Cambridge University and a representative from the University will be at the session to give you first-hand knowledge.

OR

Significance of Psychology

We will discuss the general route into undergraduate Psychology followed by discussion on how you can select one of the specialisms. Together we will explore each of the specialist areas and share some of my experiences on becoming a chartered clinical and forensic psychologist. We will then discuss what psychologists do on a day to day basis and attendees will have the opportunity to try out some psychometrics and have a go at formulation!

Saturday 13th November 2021

Creative Futures

The session opens with an introduction to the value of the creative industries and how to access over 150+ creative career paths as a result of pursuing your creativity! We will be challenging preconceptions of what creativity *is*, what it can lead to and discuss some educational routes for how to access the creative industries. NUA students will be sharing their experiences of applying to university, showcase their current work and discuss their ambitions for the next steps in their career progression. Following this participants will have chance to engage in a simple diagnostic taster workshop that will allow students to see how their skills and interests tie in with particular range of creative courses. To conclude the morning, we will explore portfolio advice to give some ideas for how creative applicants can showcase their work at its best for any university application. Participants will have the chance to ask questions throughout to make sure they get the most out of this opportunity. We hope you can join us!

A Career in Medicine

Have you ever thought about becoming a doctor? Do you have an interest in science? Do you want a job that is rewarding and worthwhile? Then come to the Medicine Master Class

Master Classes 2021

where we will be talking about the application process to medical school. Run by a practising doctor who has worked in medical course admissions. You'll find out what is involved in a career in medicine and think about what medical school could be like, as well as gaining an understanding of what you need to do to get a place in one of the most prestigious professions around.

Saturday 27th November 2021

Techniques of Dissection

There is no substitute for the hands-on learning experience of dissection. Come along to the dissection Master Class where this unique hands-on learning environment will impart an appreciation and understanding of anatomy. You will see organs and understand how they work within a single animal as we dissect a heart and lungs from a sheep and then carry out a complete dissection of a rat. While, of course, there are various differences between the intricacies of the human body and those of other animals, many of the internal systems work in similar ways and this will help to strengthen your comprehension of biological systems.

Modern Foreign Languages

This will be the perfect opportunity to see where language courses could take you. We will give you the opportunity to see how you could continue your A level languages taking them forward to university and using them in a range of contexts. You will be able to experience a university language taster lecture and interact with university students who can discuss their decision-making process and how they have used languages as part of their chosen Higher Education route. You will also be able to take a look at other opportunities at university to use your languages including making the most of Study Abroad opportunities.
