

Information for Year 11 applicants to Reepham College in September 2020

We appreciate what a difficult time this must be for you, and that your immediate priority should be to complete work that your high school has set during this period of school closure.

We would also like to reassure you that we will be sending information and materials to each of our first choice applicants next term, to help prepare you for your A Level studies at Reepham College. By which point we hope to have a clearer picture from the government regarding GCSE qualifications and when schools may potentially reopen.

In the meantime, for fairness, we will be pausing any requests for subject changes at this time and we are not currently taking any further applications for September.

We will update this website when we have more information.

Stay safe and well,
Best wishes

Helen McGuinness
